

## Armcor FMJ Bullets

Since a lot of us at [Dillon](#) shoot competitively we are always looking for value priced bullets that still deliver an accurate, repeatable, performance on target. There are several vendors that offer bullets at a marginally lower price but Armcor steps up to the plate with an fmj that is priced to compete with the [coated and plated bullets we offer](#). These 124gr 9mm fmj's are just one example of the [variety of quality offerings from Armcor you'll find on our site](#). Here is a little info from the manufacturers site:

ARMSCOR 9MM 124 GRAIN FMJ-RN PROJECTILES, 100 COUNT

Product Information:

Armcor is the largest arms and ammunition manufacturer in SouthEast Asia. They are an ISO 9001 Certified Company. These full metal jacket bullets feature a copper jacket with lead core. This is not loaded ammunition.
